9. STAGE 3: FINAL ANALYSIS BY THE DEAN OFFICE OF RESEARCH AND POSTGRADUATION

9.1. The final approval and ratification analysis of the proposal will be carried out by Propp, taking into account the strict compliance with the strategic areas listed in this Public Notice (item 5.3 b), consolidated by the PPG in its nomination.

9.2. Only proposals classified with a score greater than or equal to 210 (two hundred and ten points) in the Work Plan Scoring Table (Appendix III) may be selected, approved and ratified.

9.2.1. Up to a maximum of two proposals per appointed supervisor may be selected, approved and ratified.

9.3. The final score of the proposal (PF) will be given by the sum of the scores of the two tables (Appendix II and Appendix III), respecting the respective weights according to the formula below:

$$PF = \text{Appendix II Total} + 2 * \text{Appendix III Total}$$

9.4. Following the descending order of the final score of the approved proposals, respecting the total number of vacancies that will be made available, the ratification will be carried out in descending order of the scores of the other proposals. If there is more than one proposal selected and approved by a designated supervisor, the second proposal will only be approved after filling a vacancy for each classified supervisor, following the ranking order by score and prioritizing supervisors with Research Productivity Scholarship (PQ).

9.5. In case there is a tie in the final score of the proposals, the candidate with the highest age proposal will prevail.

9.6. Only proposals up to the limit of vacancies in the Public Notice will be approved and ratified. There will not be a waiting list, and Propp may open new Public Notices for new vacancies, regardless of the classification of candidates in this Public Notice.
